

Curriculum Vision - Music

At St Andrew's, our Music lessons follow the KAPOW Primary scheme of learning. This carefully planned sequence of Music lessons intends to help children feel that they are musical and develop a life-long love of music. It allows children to develop the musical skills of singing, playing tuned and untuned instruments, improvising and composing music, as well as listening and responding to music.

We also work with Solihull Music Service who provide whole class ensemble lessons in Year 3 (recorder) and Year 4 (brass).
